Alexis Lavail

PhD student in Astronomy

http://aalex.is
alexis.lavail@physics.uu.se

Alexis Lavail
Flogstavägen 77E-533
75272 Uppsala (Sweden)
+46(0)72 257 0369
19910526-3736

Experience

PhD student in Astronomy
Uppsala University (Sweden) & ESO (Germany) | 2013 - **present**

Research on the magnetic fields of pre main-sequence stars and M-dwarfs from high-resolution near-infrared spectroscopic data, and participation in the upgrade of the CRIRES+ spectrograph for the Very Large Telescope.

European Space Agency Stagiaire
European Space Agency ESTEC (Netherlands) | 2013, 4 months

Research intern
Uppsala University (Sweden) | 2012, 2 months

Education

MSc in Astronomical & Space-based Engineering
Observatoire de Paris (France) | 2013

Bachelor's degree in Physics
Aix-Marseille Université (France) | 2011

Preparatory school in Physics and Chemistry
Lycée François Arago, Perpignan (France) | 2010

Languages

- **French: native**
- **Swedish: intermediate**
- **English: fluent**
- **Spanish: beginner**

Refereed publications

- **Lavail, A.**, Kochukhov, O., Hussain, G.: *Characterising the surface magnetic fields of T Tauri stars with high-resolution near-infrared spectroscopy*, **2019**, accepted for publication in A&A
- **Lavail, A.**, Kochukhov, O., Wade, G. A.: *A sudden change of the global magnetic field of the active M dwarf AD Leo revealed by full Stokes spectropolarimetric observations*, **2018**, MNRAS, 479, 4836L
- **Lavail, A.**, Kochukhov, O., et. al: *Magnetic fields of intermediate mass T Tauri Stars*, **2017**, A&A, 608, A77
- Kochukhov, O., **Lavail, A.**: *The global and small-scale magnetic fields of fully convective, rapidly spinning M dwarf pair GJ65 A and B*, **2017**, ApJ, 835, L4

Observing proposals

- **Lavail, A.**, Kochukhov, O., and Wade, G. Instrument: ESPaDOnS at CFHT (Hawaii), 2019B, 4 hours, service mode. *Tracking the unprecedented magnetic evolution of the magnetic field of the active M dwarf AD Leo.*
- **Lavail, A.**, Kochukhov, O., Hussain, G., and Piskunov, N. Instrument: GIANO at TNG (La Palma), Spring 2017, 26 hours, visitor mode. *Near-infrared magnetic diagnostics for cool low-mass active stars.*
- **Lavail, A.**, Wade, G., Kochukhov, O. Instrument: ESPaDOnS at CFHT (Hawaii), 2016A, 23 hours, service mode. *A search for Zeeman linear polarization in spectral lines of active M dwarfs.*

Alexis Lavail

alexis.lavail@physics.uu.se

Talks

- STARRY final conference. June 2019, Leeds (UK)
- Department seminar. May 2019, Université de Montpellier (France)
- Astronomdagarna 2017. September 2017, IRF Kiruna (Sweden)
- Fifth Bcool meeting. February 2015, Vienna Observatory (Austria)

Grants

- **Lavail, A.**, Liljegren, S.: KVA (Royal Academy of Sciences), 2018. General announcement for Astronomy and space science. Amount: **30 000 SEK**.
  Project: *Organization of a joint workshop for PhD student in astronomy and space physics at Stockholm and Uppsala Universities.*

- **Lavail, A.**: Liljewalch resestip (Liljewalch travel stipend), 2018. Amount: **38 000 SEK**.
  Project: *Research visit at Université de Montpellier, attendance to Cool Stars 20 and SunStars school.*

- Hussain, G., **Lavail, A.**,: ESO Director General Discretionary Funding, 2017. Amount: **3 000 €**.
  Project: *Research visit at the European Southern Observatory HQ in Garching.*

Organisational duties

- **3rd Uppsala/Stockholm astronomy PhD workshop**
  Uppsala | 20+ participants | `http://aalex.is/uusu3`
  Main organiser

- **Cool Stars 19**
  Uppsala | 450+ participants | `http://www.coolstars19.com`
  Co-main organiser

- **ROSAE 2016** (French space-engineering student meeting)
  Paris | 100+ participants | `http://www.osae.fr/rosae2016/`
  Co-main organiser

- **Astronomdagarna 2015**
  Uppsala | 150+ participants | `http://www.astro.uu.se/astro2015/`
  Co-organiser

Interests

`datavizualisation, inclusiveness in science, hiking, bouldering, cross-country skiing, beer-brewing, baking, world literature and music, science-fiction, dystopia, webdesign, typography ...`
